Appendix 1

INTERPRETATIVE NOTES TO PARAGRAPH 6 OF ANNEX 2

1. Paragraph 6 of Annex 2 applies to the situation when an exporting Party places a tariff line in the Sensitive Track and the Importing Party has placed the same tariff line in the Normal Track or the Early Harvest Programme.
2. As a general rule, products classified in the Sensitive Track shall be eligible for preferential tariff treatment only when the exporting Party, which has classified that product in the Sensitive Track, reduces its tariff rate¹ for that product to at least 10%. A product placed in the Sensitive Track shall be eligible for tariff concessions even if the applied MFN rate for that product is already at 10% or below.
3. The exporting Party would have to give a notification to that effect to all Parties before the preferential tariff treatment under paragraph 6 can be applied. The notification shall be sent to all Parties. If an exporting Party has the domestic legal enactment providing for the tariff rate of the tariff line to be 10% or below, the exporting party can notify by forwarding such legal enactment to the other Parties.
4. The application of preferential tariff treatment under the reciprocal arrangement for eligible products in the Sensitive Track shall be subject to the condition that a product is classified in the Normal Track or the Early Harvest Programme of the importing Party and the exporting Party's tariff rate for that same product is 10% or below, the reciprocal rate to be applied shall be which is higher between:

- (i) the Normal Track or the Early Harvest Programme rate of the importing Party for the same product; or
- (ii) the tariff rate of the exporting Party, provided that this does not exceed the importing Party's MFN rate.

Nothing in the paragraph prevents the importing Party from granting to the exporting Party the Normal Track or the Early Harvest Programme rate, even when such rate is lower than the exporting Party's tariff rate.

¹ For this purpose, tariff rate may include applied MFN tariff rate or tariff reduction in accordance with the schedule under the Framework Agreement on Comprehensive Economic Co-operation Between the Association of Southeast Asian Nations and the People's Republic of China and the Agreement on Trade in Goods of the Framework Agreement on Comprehensive Economic Co-operation Between the Association of Southeast Asian Nations and the People's Republic of China.

5. If the tariff of a tariff line in the Sensitive Track of the exporting Party has not been reduced to 10% and below, and the Importing Party has placed the same tariff line in the Normal Track or the Early Harvest Programme, the applicable tariff rate shall be the MFN rate of the importing Party for that same product.

6. If the product is in the Sensitive Track of both the exporting and the importing Parties, the applicable tariff rate shall be the tariff rate of the importing Party for that same product, regardless of applicable tariff rate of the exporting Party.
